MAHARASHTRA CARBON PRODUCTS

Overview

Maharashtra Carbon Products was formed in 2017 with the idea of trading activity to service the customer's urgent needs and support technology for the best use of Carbon Products as a single point contact for various types of carbon requirements and allied products.

Response from the known customer base was very positive, encouraging us to set up value-added services and a manufacturing base.

Having experience of more than 25 years in THE FIELD OF CARBON as well as precision machine shop(Mainly exposure in Assam carbon products Ltd As a Production Head of Mechanical and Electrical Carbon and In M/s VSK Shaft sealing Systems as a CO-Founder of Machine Shop and establishment of Product). We have set up a small machining facility with a Resin Impregnation plant to Top up Seal Impregnation after machining to improve the life and performance of the carbon Components with a quick service concept.

MAHARASHTRA CARBON PRODUCTS

Promotors

Maharashtra Carbon Products was promoted by Jitendra Chaudhary (D.M.E. Spec. In Production) having working experience of more than two & half decade in the field of carbon & precision machine shop for Mechanical applications and have exposure to MNC and visited Luxembourg & Europe for Carbon Technology transfer into India.

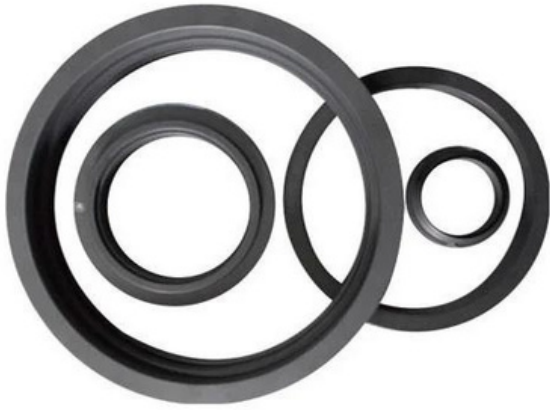

Vast experience in Carbon Manufacturing, Marketing, and Technical support to customers is his specialty

Having sound knowledge of mechanical & electrical carbon from the grass root level and have been designing and creating good quality carbon with innovative ideas.

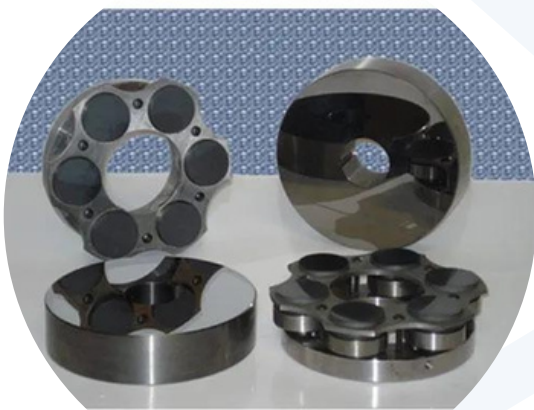

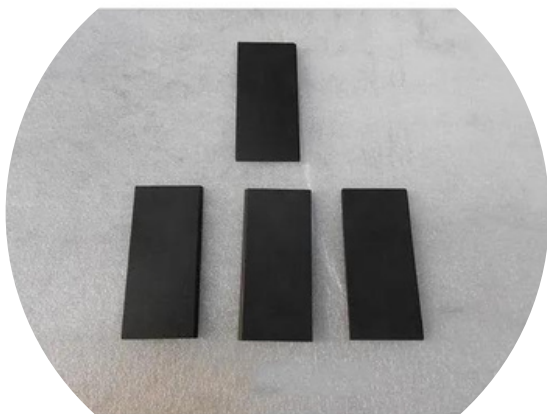

MAHARASHTRA CARBON PRODUCTS

Product Base & Services Offered

MECHANICAL APPLICATION

- Carbon Seal faces
- Carbon Bush Bearing
- Carbon Segmental Rings
- Carbon Vane Blade for Dry Running Vacuum Pump
- Carbon Steam Joints
- Carbon Rollers
- Carbon Rotors for Vacuum Pumps
- Steel Cladded Bush Bearing
- Steel Cladded Carbon Piston Rings

SPECIALITY GRAPHITE COMPONENTS

- For Pressure Sintering
- EDM
- Continuous Casting

ELECTRICAL APPLICATION

- Carbon Brushes for Motors
- Copper Tamping Powder for Carbon Brush
- Silver Coated Copper Tamping Powder for Carbon Brush

MAHARASHTRA CARBON PRODUCTS

Service Offered

We have Resin Impregnation Plant where Carbon Components are re impregnated after final machining to fill up the open Porous if any, and to make Carbon Impervious for carbon to work at higher pressure also.

This Technology is adopted world over by all the leading Carbon Manufacturers and our technology is also based on the same theory.

This service is offered to the entire Composite seal manufacturer as a support to improve their quality.

We are meeting the requirement of Various Composite Seal Manufacturers and end users and EOU units at a very competitive price and quick service.
